Positioned only 30 km from EU border, with excellent connections to coastal area of Adriatic sea and duty free region of CEFTA, Municipality of Bosanska Krupa has favorable geo-strategic position for export oriented investors. Its territory is blessed with natural resources – forest, waters (rivers, streams and lake) and fertile land. Bosanska Krupa is one of the few municipalities in BiH with increase in investments, employment, income and export in the last three years. Local Government is committed to: Development of infrastructure to support economic growth and investments; Construction of processing facilities and increasing the added value in metal, wood and food processing industries; Cooperation with the private sector in order to align educational programs with labor market needs; Development of tourism offer aimed at attracting more domestic and foreign tourists; Creating a business-friendly environment with efficient and transparent administration and stimulating conditions for starting and developing a business. Recently, remarkable results have been made in the field of surface treatment of metals or galvanizing, production of cabins for working machines, production of bodies for motor vehicles and fine metal processing.
